"Throughout Bridgitte's time with us we have found her to be reliable, up to date on industry trends and approachable. Her tasks whilst with us ranged from iPhone App design through to logo conception and document layouts. I would definitely recommend her to future employers, she really added value to our small team"

FELIX OPPEN

BILLY BLUE COLLEGE LECTURER

OWNER OF TILQUA STUDIO

"I have known Bridgitte for about two years. She is a hard worker, a quiet achiever, without being reticent. She seeks advice when she needs further understanding, but is quick to catch on and engages strongly with projects. During the time I have known her she has faced external pressures that threatened to derail her work, however, she was able to develop strategies that allowed her to continue with her work unimpeded by these issues."
